

## ASTRO FORECAST WITH ANNOTATED FOOTNOTES

**(A)** The year starts gracefully with a lovely Sun Trine Moon and Parallel Venus on the 3rd giving the day a social sparkle.

**(B)** On the 6th Mars moves from impetuous Aries to patient Taurus, so switch from picking fights to choosing restaurants.

The Three 'Kings' were Astrologers. **(C)** On the 8th Mercury

enters brilliant Aquarius and Venus enters ambitious Capricorn. Expect some turbulence, but great accomplishments are possible through cooperation. **(D)** On the 9th the sky is the limit if you'll make the effort. **(E)** The New Moon on the 12th begins an ultra-practical, yet visionary period culminating on February 11th, the Chinese New Year. **(F)** When Uranus turns Direct on the 14th, amid a host of beneficial Aspects, the brakes come off and the potential unleashes.

**(G)** On the 19th the Sun tip toes into Aquarius. **(H)** waiting for the White Circle Day on the 23rd to Conjoin Saturn and Trine the Moon. Resistance fades before determined action, use this clear path to get things done. **(I)** The Aquarius/Leo Full Moon on the 28th contrasts cerebral Aquarius and dramatic Leo. It happens coincidentally with the annual Sun Jupiter Conjunction, so global issues are at hand. Beware of that heart-based Moon, don't let your emotions get away from you like a wild horse spying an open meadow. **(J)** On the 30th the Black Box notes Mercury turning Retrograde in its Exalted Sign Aquarius. Expect snafus in communication for the next three weeks. However, with Jupiter in Aquarius some screwups might be bad, but others might be good. With 'literal' Mercury at work it's vital to maintain a great mental attitude, "As you think, so you become".
